## Mobile & Online Payments

### Payment Product

- ▶ Currency Conversion
- ▶ Process EBT, Debit and Credit Card Transactions
- ▶ Shopping Cart e- Commerce Solutions
- ▶ Customizable e-Comm Processing Solution
- ▶ Electronic Checks
- ▶ Loyalty Rewards Program and Gift Card Processing

### Mobile & Online Solutions

- ▶ Offer businesses a robust omni-commerce answer for processing payments in a variety of environments, including in-store, mail/telephone order or an e-commerce storefront. Extends payment processing to a convenient, easy-to-use, mobile app allowing you take payments on the go or as a quick checkout option during peak business hours.

### Online Payments with our Gateway

- ▶ Provide credit card processing with a hosted payment solution. This includes processing debit and credit cards, electronic checks, electronic gift cards and EBT (electronic benefit transfer). Suitable for small complex needs, including a customized payment experience through integration with a payment gateway. All payment information is hosted and secured within our Gateway Payment Platform, helping to maximize your data security while it minimizes compliance efforts. Additionally, for in-person payments, chip card devices help protect your business from fraud losses.

### Mobile Payments with Converge Mobile formerly Virtual Merchant

- ▶ Turn your smartphone or tablet into a checkout line. Accept debit and credit card payments on the go with the Converge Mobile app and your own smartphone or tablet. The Ingenico iCMP PIN Pad which accepts EMV Chip Cards helps you minimize card fraud losses while encryption technology helps secure card data throughout the payment process. Plus, you can accept mobile payments, like Apple Pay, using contactless, or "Tap and Pay," Payment Technology.

Invoice customers  
electronically with  
NTC e-Pay

- ▶ Secure and Fast Nothing To Integrate!
- ▶ NTC e-Pay is for any merchant who wants to avoid the complexities of a shopping cart or integration into an accounting system or point of sale. When custom pricing becomes an issue, shopping carts, POS systems and booking engines tend to get really complicated. NTC e-Pay does away with those complications by allowing merchants to simply email a payment request that can be paid in 2 simple steps.

- No Mailing Invoices
- No Faxing Invoices
- No Waiting For Information
- No Waiting For Documents
- No Waiting for Payment
- No Entering Information

## MediPaid Medical Insurance Claims Payment

Delivering paperless, next-day deposits for Health Insurance Payments.

- ▶ NTC's MEDIPAID delivers next-day deposits for any Medical entity that must bill health insurance companies.
- ▶ MEDIPAID will bring the speed, ease and convenience of credit card merchant accounts to the world of medical insurance payments. Upon MEDIPAID's deployment, the medical office receives its payments considerably faster. The revenue is immediately available since it is paid directly into the businesses' checking account with secure electronic payments.
- ▶ NTC's agents help merchants standardize their Electronic Remittance Advice (ERA) and distribution options to automate posting which further reduces paper and time burdens. At a rate far less than credit card processing or third party billing companies, MEDIPAID is designed to eliminate the healthcare provider's paper check payments with electronic payments that include the remittance detail (ERA) and further allows providers to take advantage of distribution options to automate the claims payment posting processes
